Dear Authors,

Please find in the attachment, review process results of your paper(s).

The review was mainly about the paper format (the way you organize your paper according to the template) and novelty (gap between previous research findings and your study). You must show that at least 10 related papers from reputable international journals are referenced in your paper.

Due to limited time given by the journal publisher, we apologize that you will only be given a maximum of 7 days to revise your paper and submit back to us for final decision.

Please be advised that should your paper is selected to be published in the journal, you may be charged an additional fee. We will inform you once final decision is made. If your paper is not selected then it will be published in our BISSTECH 2015 Proceedings.

Thank you for your participation in the seminar.

Good luck to you all.

Regards,

BISSTECH 2015  
Committee

Dear committee,

I'd like to raise a question regarding the journal indexed by scopus that you have been contacted to publish papers of bisstech 2015, i.e. what are journals that have been contacted to publish our paper so that the cost is US\$ 600? Is that ARPN because we have to follow ARPN format?

Thank you very much in advance for your kind information.

All the best,

Wenny
